ADI clients include Fortune 500 companies, small businesses and all levels of government. We have worked on environmental projects in 20 countries including Canada, Malaysia, Australia, New Zealand, China, India, France, Poland, England, Brazil, Chile, and USA. Chances are, we have worked on a project similar to yours and can give you the benefit of our expertise.

Our professionals are dedicated to quality environmental engineering and have a diversity of experience in environmental management issues. We provide comprehensive consulting services ranging from problem identification through to design, remediation, monitoring and training. To provide you with consistent and reliable results, each project follows our ISO 9001 Quality Management System. We have over 50 years experience in engineering services and provide services which are effective, efficient and meet environmental standards.

ADI Environmental Engineering Services can be your sole source for experienced professionals. Our goal is to meet your needs creatively, on time and within budget. When considering your long term environmental objectives, overall costs and after-care attention, ADI is a wise choice.
