ADI CAN:

- Assist you with the process of developing a new solid waste system or expanding an existing one.
- Partner with you to provide sound technical guidance.
- Assist you in reducing your overall project costs while maintaining a high level of environmental protection.
- Work with you to develop innovative designs and cost-effective solutions.
- Guide you through the process to ensure the new/expanded system is the best fit for your project.
- Deliver design-build projects tailored to meet your specifications

ADI LIMITED

ADI's Solid Waste Group offers one-stop, multi-disciplinary expertise for all of your solid waste needs. Whether you are a small business, a village, an institution, a large city, or an industrial client, the multi-disciplinary team of ADI's Solid Waste Group will respond to your waste management requirements.

Our team has the capability to provide all of the services required for your solid waste project: solid waste management, facilities design (architectural, electrical, mechanical and structural), leachate treatment, hydrogeology, geotechnical and municipal engineering, CAD, construction services and public consultations.

We can provide you with comprehensive consulting services ranging from planning (waste audits and EIA's) through to design, construction, and operation of your system.

ADI's Solid Waste Services Group is comprised of engineers and technologists who have worked on hundreds of projects throughout Atlantic Canada. Our vast knowledge will be applied to your project to develop a cost-effective solution that suits your needs.

ADI Limited provides consulting engineering, project management, environmental management and architectural services throughout Atlantic Canada and New England. Founded in 1945, we have grown to 200 professionals and technicians at nine offices across the region. We deliver innovative and cost-effective solutions to meet our customer's needs using our registered ISO 9001 quality management system.

NINE OFFICES ACROSS ATLANTIC CANADA TO SERVICE YOUR NEEDS:
