

## **ADI Systems Inc. Arsenic Treatment Technologies**

ADI offers complete treatment systems for the removal of arsenic from drinking water.

The MEDIA G2® Arsenic Removal System is highly efficient and cost effective for the removal of arsenic from drinking water. Levels of arsenic can be reduced to less than 2 ppb, even from concentrations exceeding 1200 ppb.

Hundreds of millions of gallons of contaminated water are treated by ADI MEDIA G2® treatment systems around the world.

To meet EPA and WHO guidelines, contact Mike McMullin, P.Eng. at 800.858.1888 or [mjm@adi.ca](mailto:mjm@adi.ca)

- Meet regulatory limits (EPA and WHO)
- System is simple to operate
- Low capital and operating costs
- Continuously dependable and reliable results
- Systems in place for over 15 years
- Commercial, institutional and residential systems available
